You can set daily security limits on your card for cash withdrawals at cash ATMs and for bills paid immediately at payment ATMs.

With the usage area restriction you can restrict card payments and ATM withdrawals to a certain geographical area. For example: you can allow the use of the card only in Finland and expand the area when you travel abroad.

With online settings you can allow or prevent the use of your card on the Internet. You can easily change the settings in Netbank or Nordea's Mobile Bank app as often as you like.
