

## **Our stock exchange trading services will be upgraded**

Our current trading services will change on 1 October 2019. Saver's service and Investor's service, which are based on the packaging of services, will be replaced by one free trading service where you can add additional services of your choice. Thus you can choose the additional services according to your needs and thereby will not have to pay for anything you do not need. The brokerage fees for stock exchange trading will remain unchanged.

After the change, our corporate customers will be able to start using a free service enabling stock exchange trading.

Without the trading service, you will still be able to see your assets in Nordea's custody, buy and sell fund units and open savings agreements.

## **New trading service and new additional services**

The free-of-charge trading service includes the following functionalities:

- Trading in domestic shares, ETFs, warrants and certificates, foreign shares and ETFs
- Kauppalehti news
- Weekly report
- Up-to-date prices from the Helsinki, Stockholm, Copenhagen and Oslo stock exchanges, one bidding level, with a snapshot update\*
- Five bidding levels and a snapshot can be separately activated free of charge from the Helsinki, Stockholm and Copenhagen stock exchanges

\*Snapshot means that you must update the price information by clicking the Update button.

You can attach the following chargeable additional services to your trading service:

- Real-time prices, one bidding level, automatically updated (streaming) Helsinki, Stockholm and Copenhagen. The order book shows the top level for the instruments quoted on the Helsinki, Stockholm and Copenhagen stock exchanges. The prices will be updated automatically.
- Real-time prices, five bidding levels, a snapshot, Oslo. The order book shows the five best levels for the instruments quoted on the Oslo stock exchange. The prices are updated when you click the Update button.
- Real-time prices, one bidding level, automatically updated (streaming) Oslo. The order book shows the top level for the instruments quoted on the Oslo stock exchange. The prices will be updated automatically.

- Real-time prices, one bidding level, a snapshot, USA. The order book shows the top level for the instruments quoted on the New York stock exchange and on Nasdaq. The prices are updated when you click the Update button.
- Real-time prices, one bidding level, automatically updated (streaming) USA. The order book shows the top level for the instruments quoted on the New York stock exchange and on Nasdaq. The prices will be updated automatically.
- Nordea Markets' corporate analyses and Company snapshots. In support to your investment decision, you will get the nearly 300 most important Nordic companies analysed by Nordea Markets with recommendations and target prices as well as Company snapshot corporate reviews of non-Nordic companies.
- Nordea Markets' morning report. Our morning report gives you an insight into movements in the equity markets, company news, and key market drivers of the day. The report also includes Nordea's Global model portfolio. The morning report is published daily from Monday to Friday before stock exchanges open.
- Additional purchasing power for stock exchange trading.
