Removal of authorization		
If this Power of attorney is given to change the Authorised intermediary, it is possible to order the closing of connections and services for the previous intermediary with this same document. The ideal closing date must be given (deletion at earliest). After the given date Nordea will no longer receive or send files to the former intermediary. It is important to be careful in checking that the services are up and running with the new Authorised intermediary before the closing date. Also if there are cash management services that are no longer needed after the change, the closing of the services can be ordered with this same PoA. After the deletion date the service is not available in any channel.
