General information on the InvestmentDeposit account

The InvestmentDeposit account is a time deposit account. The reference asset type affecting the potential additional interest changes by each new lot. The amount of the deposit interest, the variation range of the additional interest and the basis on which the additional interest is determined also change by each new lot.

Interest paid on the InvestmentDeposit account and how it is calculated

Deposit interest

The deposit interest is fixed for the entire deposit period and is paid from the deposit date to the maturity date, excluding the maturity date. The deposit interest is determined by lot. Please note that the deposit interest may also be 0%.

Additional interest

The reference asset type of the possible additional interest paid on the deposit capital, the possible variation range of the additional interest amount and the determination basis, calculation method and payment of the additional interest are determined separately for each lot and are stated in the special terms and conditions concerning additional interest. The additional interest is not annual interest.

Deposit guarantee and taxation

Funds deposited in an InvestmentDeposit account are covered by the currently valid deposit guarantee in the scope laid down by law. Please take into account that the deposit interest and the additional interest are not covered by the deposit guarantee.

The deposit interest paid to the account and the potential additional interest constitute income as referred to in the Act on Withholding Tax on Interest Income for natural persons with general tax liability in Finland and for Finnish death estates.

Risks

If the deposit interest is 0% and the conditions for paying the additional interest are not fulfilled, the return on the deposit is 0%.
